

## Agricultural Marketing Service, USDA

§ 989.65

committee may establish, with the approval of the Secretary, such rules and procedures as may be necessary to permit the acquisition and disposition of any off-grade or reserve pool raisins, free from any or all regulations, for uses in non-normal outlets.

(b) The committee may establish, with the approval of the Secretary, such rules and procedures as may be necessary to exempt from any or all regulations raisins produced in southern California (i.e., the counties of Riverside, Imperial, San Bernardino, Ventura, Orange, Los Angeles, and San Diego) and disposed of for distillation, livestock feed, or by export in natural condition to Mexico.

(c) The committee may designate such raisins as it deems appropriate for production, processing, and marketing research and development. The period of such designation shall be for not more than five years unless extended by the committee. The volume which may be acquired by all handlers shall not exceed 500 natural condition tons annually for each designated project, unless increased by the Secretary upon a recommendation of the committee. Such designated raisins may be acquired and disposed of free from those regulations specified by the committee. In any crop year, when the total industry acquisitions of the designated raisins exceed 500 natural condition tons or a larger quantity approved by the Secretary upon a recommendation of the committee, the exemption shall not apply.

[29 FR 9484, July 11, 1964, as amended at 32 FR 18086, Dec. 19, 1967; 37 FR 19623, Sept. 21, 1972; 42 FR 37202, July 20, 1977]

### § 989.61 Above parity situations.

The provisions of this part relating to minimum grade and condition standards and inspection requirements, within the meaning of section 2(3) of the act, and any other provisions pertaining to the administration and enforcement of the order, shall continue in effect irrespective of whether the estimated season average price to producers for raisins is in excess of the parity level specified in section 2(1) of the act.

[42 FR 37202, July 20, 1977]

## TRADE PRACTICES

### § 989.62 Authorization for prohibition of trade practices.

Whenever the Secretary finds, upon recommendation of the committee or other information, that continuance of certain practices in trade channels would tend to interfere with the achieving of the objectives of this part, he may prohibit handlers from using such practices, for any crop year or portion thereof, in selling raisins in containers exceeding four pounds net weight. The prohibited practices may include:

(a) Any provision within or added to a sales contract, or action or agreement outside such contract, whereby the handler is obligated to reflect declines in market prices of raisins by charging the buyer a subsequent market price in lieu of the sales price specified in the contract.

(b) Any agreement in an undertaking to hold raisins in reserve for possible future delivery to a buyer, or action or agreement outside such undertaking, whereby the handler is obligated to not reflect increases in market prices by charging the buyer a price specified in the agreement.

Prior to any such practices being prohibited in any crop year, the committee shall recommend, for the approval of the Secretary, such rules and procedures and such record keeping requirements as are necessary to administer these prohibitions and obtain compliance therewith.

## VOLUME REGULATION

### § 989.65 Free and reserve tonnage.

The standard raisins acquired by handlers which are free tonnage, and any reserve tonnage purchased for free use, may be disposed of by him in any marketing channel, subject to the applicable provisions of this part. A handler's free tonnage of a varietal type of raisin shall be either the free percentage of the standard raisins of the varietal type acquired by him or all of the standard raisins of the varietal type acquired by him if no free percentage is established by the Committee or designated by the Secretary for that varietal type. A handler's reserve tonnage

of a varietal type shall be the reserve percentage of the standard raisins of that varietal type acquired by him.

[48 FR 32977, July 20, 1983]

**§ 989.66 Reserve tonnage generally.**

(a) The standard raisins acquired by a handler which are designated as reserve tonnage and reserve tonnage transferred to a handler by the committee shall be held by him for the account of the committee and subject to the applicable restrictions of this part.

(b)(1) Each handler shall hold in storage all reserve tonnage acquired by him and all reserve tonnage transferred to him by the committee until he has been relieved of such responsibility by the committee either by delivery to the committee or otherwise. Such handler shall store such reserve tonnage raisins in natural condition without addition of moisture and in such manner as will maintain the raisins in the same condition as when he acquired them, except for normal and natural deterioration and shrinkage, and except for loss through fire, acts of God or other conditions beyond the handler's control.

(2) Reserve tonnage acquired by a handler or transferred to a handler by the committee shall be stored separate and apart from other raisins to such extent and identified in such manner as the committee shall specify in its rules and procedures with the approval of the Secretary.

(3) Each handler may, under the direction and supervision of the committee, substitute for any reserve tonnage raisins a like quantity of standard raisins of the same varietal type and of the same or more recent year's production. Each such handler shall give the committee reasonable advance notice of his intention to substitute, the exact location of the raisins for which substitution is to be made, and arrange with the committee a mutually satisfactory time for the substitution.

(4) The committee may, after giving reasonable notice, require a handler to deliver to it, or to anyone designated by it, at such handler's warehouse or at such other place as the raisins may be stored, part or all of the reserve tonnage raisins held by such handler. Reserve tonnage raisins delivered by any

handler to the committee, or to any person designated by it, in the form of natural condition raisins shall in the aggregate be not more than 2 percent less than the average maturity level of all raisins such handler acquired during the applicable crop year. The committee may require that such delivery consist of natural condition raisins, or it may arrange for such delivery to consist of packed raisins.

(c) Each handler shall, at all times, hold in his possession or under his control reserve tonnage referable to his acquisitions of standard raisins and reserve tonnage transferred to him by the committee, less any quantity of such reserve tonnage released to him by a change of percentages, delivered by him pursuant to instructions of the committee or sold to him by the committee.

(d) Reserve tonnage raisins delivered by any handler to the committee, or to any person designated by it, whether in the form of natural condition raisins or packed raisins shall meet the applicable minimum grade or grade and condition standards, except for normal and natural deterioration. The committee shall have the authority to require, in its discretion and at its expense, such reinspection and certification of reserve pool tonnage raisins as it may deem necessary.

(e) In the event the committee offers to handlers reserve tonnage raisins for contract packing or for sale in export, as provided in § 989.67, each handler shall be given the opportunity to pack or purchase his share of each offer.

(f) Handlers shall be compensated for receiving, storing, fumigating, handling, and inspection of that tonnage of reserve raisins determined by the reserve percentage of a crop year and held by them for the account of the committee, in accordance with a schedule of payments established by the committee and approved by the Secretary. A box rental shall be paid by the committee to producers or handlers for boxes used in storing reserve tonnage raisins beyond the crop year of acquisition in accordance with a rental schedule established by the committee and approved by the Secretary. The handler compensation shall be reviewed annually and shall be paid, as
